Honorable Aleta A. Trauger,

U.S. District Court Case No. 3:15-cr-00037-2
Middle District of TN

I pray this letter finds you in good health and spirits. My name is Benjamin Bradley 50878039. Honorable Judge Trauger I'm writing you this letter to inform you about an extraordinary circumstance that I am asking to seek relief under 3582. I think this situation is real compelling.

On April 16, 2020 My Case manager R. Wilson called me in the office and told me that I was selected to go on home confinement under the Care Act. She said I fit all the criteria that the Warden posted on a memo on our CorrLink system on April 16, 2020 which was your instant offense could have no violence, No terrorism, no sex offense, Low custody points, low risk assessment score. And No infractions within the last year. Also No warrants, Detainers, or parole holds. So after I signed my release plan and supervise release papers and home confinement papers and was told to tell my parents to be expecting the probation officer call to schedule a visit for a walk through. I was told today that the Warden amended the memo that inmates must complete 50% of their sentence. (I wanted to provide a copy of everything but due to lockdown we have no access to law library copies). So I went from waiting on a release date to being told I can't go now because I am 30 months short of the 50%. This was devastating to me and my family even with my unwavering faith. But Faith without works is dead. So I feel the least I can do is request a sentence Reduction for the time needed to make me eligible for the Care act Home Confinement. Judge Trauger I know I got all prison got to offer me. I changed my life. I changed my way of thinking and I do the right thing all the time. I know 5 years ago I made bad bad decisions and I realize the seriousness of these decisions and I lost so much behind it. I lost a wife, I lost a career, I lost out on precious moments of my kids life. I was lost but not until I was lost did I find myself. I just want my chance for redemption. I wanna make it right. I wanna make sure my kids who is going to high school this

Coming School year have a fair shot at life. They are not doing there best in School right now. Its rough on an single mother with no education to raise 3 Kids. My Kids basically is under the gamble of ^{their} accomplishments of natural growth. They are not being raised under concerted cultivation. I need to be out there for them. I need to be out there for my elder parents. I know how valuable doing the right thing not risking my freedom is now. I will never re offend. I feel like this ^{was} my miracle. I didn't request it. I ^{was} told my name was sent to My unit team from the Director and they had to get me done by today. So I can leave in two weeks. Because I know I will never offend ^{again} if you decide to reduce my sentence for the reason of my release to Home Confinement under the Cure Act whatever time you take off my actual sentence you can add that to my supervised release. I don't care I know that I'm gone do the right thing. I still got support and people willing to testify and vouch to my growth and dedication to fight my wrongs. I got a plan Judge Trauger and its not just about me. Please grant me this Compassionate Release reduction only if you confirm that my Warden will release me to Home Confinement. Please let me know what I need to do to put this in motion. Thank You. God Bless

Respectfully
Benjamin Bradley 50878039
